

**PRO STATEMENT FOR CFSD BALLOT ISSUES
November 3, 2015**

- 1) FACILITIES IMPROVEMENT BOND (Prop. 432)
and same statement for
2) BUDGET OVERRIDE FOR TECHNOLOGY (Prop. 433)**

Our children have already graduated from CFSD schools, so why should we care about passing the facilities improvement bond and about renewing the budget override for technology in CFSD?

Because we know from personal experience the value of maintaining and equipping our schools with the tools teachers need to provide children a quality education. Our children are CFSD success stories: they thrived in our CFSD schools, went on to graduate from respected universities, and now are well into productive professional careers.

We will be forever grateful to the generations of voters before us whose commitment to education helped build, equip and support our excellent CFSD schools.

Now, in this election, we urge current voters to continue our community's long tradition of supporting the high quality of education in our district. Your Yes votes will allow our school facilities to be maintained and will provide our children with access to the latest technology to use in their learning.

Please vote Yes on the CFSD facilities improvement bond (Prop. 432) and the CFSD budget override for technology (Prop. 433).
